## EXPERIENCE

### User Experience Designer

January 2018 – December 2018

Farm Credit Services of America

- Independently responsible for the planning, design, and development of web application; serving as the technology team's knowledge base and association's leading example of modern design
- Derived usable solution based on surveys, information architecture testing, wireframe first click testing, and usability testing
- Communicated effectively to facilitate productive meetings, present work, and liaise between four departments
- Researched design system components

### Full-Stack Application Developer Intern

May 2017 – August 2017

Farm Credit Services of America

- Designed and developed mobile-friendly application based on problem statement to share volunteering opportunities in most intuitive format
- Derived usable interface based on mobile-first sketching session, paper prototype testing, and performing A/B testing and usability testing on wireframes
- Collaborated and communicated effectively on team of seven developers and two product owners in agile environment
- Presented application to organization's twelve development teams and CEO
